

# VASALGEL RANKED FIFTH IN SCIENCE BREAKTHROUGHS

*Posted on January 25, 2017*

Vasalgel was listed as #5 on the Cracked list of science breakthroughs that might save humanity. This revolutionary male contraceptive has the potential to change population dynamics and provide men with much-needed reproductive control. Vasalgel ranked up there with wireless technology, portable HIV testers, and agricultural gas reduction (by feeding cows seaweed). [Check out](#) this fun and educational list.
